

Forensic Fridays

Offer Unique Continuing Education Opportunities

Fresh on the heels of a successful inaugural season and its first two programs of 2011, the Cyril H. Wecht Institute of Forensic Science and Law is pleased to offer the following *Forensic Fridays* spring seminars:

Friday, March 11

1-4:30 p.m.

Duquesne Room, Duquesne Union

The Science and Law of End-of-Life Decisions

As our population continues to age and medical advances permit longer lives than were previously possible, questions about how and when to end life abound. From the execution of living wills in hospitals and nursing homes to the national

The Science and Law of End-of-Life Decisions

As our population continues to age and medical advances permit longer lives than were previously possible, questions about how and when to end life abound. From the execution of living wills in hospitals and nursing homes to the national debate over assisted suicide, the issue raises multiple legal, ethical and scientific concerns. Join Family Hospice Educational Coordinator Lillian Sweeney, forensic pathologist Dr. Cyril Wecht and other experts for this provocative seminar.
