Quilts Donated to Family Hospice

On April 6, Jerri Slade presented the staff at Family Hospice's Center for Compassionate Care in Mt. Lebanon with six hand-made quilts to be used by patients and families - and a promise to deliver more in the future. "It is my hope that the quilts will be a source of comfort and strength during difficult times; a tangible keepsake, and treasured reminder of special times and loved ones," Jerri said. Her husband, James, a Family Hospice patient, passed away last year.
